Skype: [frank.mendez89](#)

I'm a Full stack Developer with a solid technical background and experience developing web apps and shipping user-facing features and I believe I have the skills that you wanted. I developed scalable **SaaS products** that build customer trust through accessible and reliable user experiences. I have experience developing with one or more programming languages; NodeJS, **Typescript**, ES6, and Frontend frameworks such as **React** and **Angular**. I'm proficient with NestJS, TypeORM, Redux, NgRx, AWS, Github Actions, CI/CD, Docker, Flutter, Firebase, MongoDB, ExpressJS. I graduated **Bachelor of Science in Information Technology** Major in Multimedia. I'm the youngest in a family of 6. I like to watch movies and series. I also like to eat healthy food. Maintaining my health and body to a best shape. I love to travel go biking, trekking, hiking and anything that involves nature.

EXPERIENCE

OCTOBER 2021 – PRESENT

FULLSTACK DEVELOPER, ARCANYS

Arcanys is a premier Swiss software development outsourcing firm in the Philippines. Specialising in building and maturing highly-skilled dedicated teams of developers for startups and established businesses. I was assigned on an account from New Zealand called NomosOne which develops a **Lease management system** for clients around the world. I help in development of the new version for the frontend creating new features and managing existing features. I also help create and help manage some backend endpoints hence the Fullstack role. Uses **SCRUM** and agile method. Tech used: Typescript, ReactJS, **AWS**, NodeJS, Charka UI, Zustand, Jest, Mocha, Github Actions, Jenkins, Jira

FEBUARY 2021 – SEPTEMBER 2021

FRONTEND DEVELOPER, AERAPASS LTD

Aerapass is a **Fintech company** that delivers banking solutions. In this role I helped in creating new features and making innovations on existing features like **KYC(Know your customer) verification system**, Currency computation, withdrawal, deposit functions and **security features**. We use scrum development. Tech Used: Typescript, Angular, TypeOrm, NodeJS, NgRx, Ant Design, Jest, Mocha, Github actions, Docker

FEBUARY 2020 – FEBUARY 2021

FRONTEND DEVELOPER, EMPOWER ASSOCIATES

Empower is a group of senior recruiters who leverage both a process and platform that automates and amplifies their recruiting efforts. I helped development and revamp an existing

frontend to create a new version which allows recruiter to find candidates easily and effectively. I was assigned mostly on main features like integrating **RestAPI** endpoints like user data from LinkedIn and mapping it on the system. We used scrum development. Tech Used: ReactJS, Redux, NodeJS, Postgres, Jira, Github, Elastic UI, Docker

MAY 2017 – FEBRUARY 2020

WEB DEVELOPER, HEAVISIDE GROUP

Works directly with the CEO of the company. Builds mostly Web Projects and anything that requires custom development. Handles Web Server Management and cPanel. Works on **WordPress** Environment migrating from dev site to live site. Works on customize WordPress plugin, customize WordPress theme. PSD to WordPress, PSD to HTML and on page SEO Implementation.

DECEMBER 2016 – JUNE 2017

FRONTEND DEVELOPER, HIGHOUTPUT

Web Development for complex application. Assigns on integrating **payment gateways** to ReactJS Frontend. The company also conducts **CodeCamp** in Local Communities for presentation of new ideas and tech, Has 5 core values. Allows us to learn new things and that sky is the limit. Development uses SCRUM. Tools used: AngularJS, ReactJS, ES6, NodeJS, Git NPM, Bootstrap , CSS, JavaScript, HTML

DECEMBER 2016 – JUNE 2017

WEB DEVELOPER, ARNLEA SYSTEMS LTD

Application development for asset management and **maintenance management system** used in Oil industry. This company is based in UK. Development SCRUM and AGILE. Tools used **Codeigniter**, Bootstrap MySQL, **PHP**, CSS, JavaScript, HTML
